

BRYON SMITH

FULL-STACK DEVELOPER

About

Drive, hard work, and my love of programming has made me a successful full-stack developer. I've studied and practiced programming for 6+ years. For the last 2+ years, I doubled my efforts, practicing 8-12 hours a day, 7 days a week. **HTML, CSS, JavaScript, React, Typescript, Node.js** are just a few of my skills.

Thank you for reviewing my resume. I'm excited to talk to you and see if we're a good fit.

Experience

Full-Stack Developer Training 2016-current

I have dedicated the last 6+ years learning and growing. Check out [my profile page](#) for examples of my latest work. Here are a few of the training courses:

- Modern React with Redux
- Next.js & React - The Complete Guide
- Node.js, Express, MongoDB. The Complete Bootcamp

Smith Auto 2003-2015

Owner, Manager, Lead Tech, ASE Master Mechanic, L1 Advanced Engine Performance

Hard work and skillful diagnostics earned me the reputation as the go-to shop and the '2014 Best of Car Repair in Crockett' award. Check out one of my [training videos!](#)

- Pioneered new methods of building customer trust and confidence with before/after repair videos.
- I trained and supervised mechanics, service writers.
- Worked closely with parts suppliers to receive parts in a timely fashion for the best price.
- Created work guides that made employee responsibility and accountability clear.
- Streamlined employee workflow to prevent bottlenecks and interruptions.
